

Hills Waste Solutions and Hills Municipal Collections

Coronavirus Business Continuity Statement

5 November 2020

This update follows the Prime Minister's announcement of new national restrictions to combat the spread of the COVID-19 pandemic, effective from 5 November and expected to end on 2 December 2020.

Hills Waste Solutions' and Hills Municipal Collections' priority is to keep our employees, customers and community safe by continuing to comply with Government guidance on the COVID-19 pandemic and how to limit its spread. We are continuously monitoring the impact that this is having on our business and are working hard to mitigate any potential service disruption so that we can continue to deliver essential services to both our commercial customers and the public.

We are in dialogue with our commercial customers affected by the new restrictions to ensure that we continue to meet the changing needs of their businesses during this time.

In line with Government guidance, we have made arrangements for employees to work from home where their role permits. Social distancing and Coronavirus transmission mitigation measures have been implemented across all our operations and will be kept under review to maintain our work places as COVID-19 secure.

We continue to follow Government guidance to ensure that our business activities and work environments are as secure from the virus as possible, and we will keep our employees, customers and the public updated with any changes to our services.

If you have any queries please contact us via email at info@hills-group.co.uk and in the meantime, continue to take care and keep safe.

Ed Dodd
Group director - Waste and Resource Management
